

Beef Progeny Test field days

CABERFEIDH - TUESDAY 08 AUGUST 10AM-3:30PM

723 Corrighalls Road, Hakataramea Valley

TAUTANE STATION - TUESDAY 15 AUGUST 10AM-3:30PM

398 Tautane Road, Dannevirke

By the end of this year, the B+LNZ Genetics Beef Progeny Test will have produced three crops of calves.

Progeny from the first crop will be either processed or within the breeding cow herd. The second crop will have weaning and yearling weights analysed and the third crop will be on their mothers.

Registrations essential.

Please RSVP online here:

Online Registration link 

or call us on 03 477 6632

The field days will focus on:

- **Latest results: including growth, heifer fertility and carcass ultrasound (EMA)**
- **A demonstration of carcass ultrasound (EMA) in live steers**
- **A demonstration of structural assessment in live steers**
- **New traits and opportunities from the trial.**

Progeny test calves will be on display. The afternoon includes a farm tour (4WD's only, no quads)

Lunch supplied.
